MEMORANDUM

To: Deputy Commissioner, Regional Operations

From: Supt Steve Gleeson (On Assignment with Operation Bendigo)

Date: 5 May 2014

Subject: CRB file 069848 – Allegations by Nicola Gobbo against a serving police officer - Further Information Gathered

1. In the course of being assigned to the Operation Bendigo data aggregation tasking, the above mentioned file was received via your office. Op Bendigo activities and inquiries have since generated certain material identified as potentially relevant to this matter. Accordingly, copies are now attached. Details are as follows:
 - Folios 24-29 – correspondence reflecting that in 1999 former A/C Pope did register Nicola Gobbo as an informer and was nominated to act as handler for this relationship, and
 - Folios 30 39 - correspondence relating to two instances in 2012 (May and July) of former A/C Pope directing an Interpose administrator to undertake covert (interpose) system checks and report back to him (Pope) on the findings. These searches included drives of sensitive taskforces such as Petra, Driver and Purana Covert. It is not readily apparent if any of these searches are in any way linked to the Gobbo matters.
2. As this file has its origins at your office, and due to the sensitivities involved, the file is returned for your consideration.

 Superintendent Steve Gleeson APM
 State Emergencies and Security Command
 (On assignment with Operation Bendigo)

*Provided to me today, 10/6/14.
 The material (folios 22-40)
 is noted. I see no need for
 further action at this
 stage*

 Steve Carberry
