Subject: Review developments

Jeff,

I was meeting with the CCP yesterday on emergency management issues and he quizzed me about those out of scope issues within the 3838 matter and we discussed same.

He is aware that these are to be progressed via a separate report and was comfortable with this being the only appropriate way forward.

I have drafted a report to you which both Fin and Neil Comrie have seen and are comfortable with.

I can provide this to you forthwith.

SG
