It went really well.  
 We now have a great contact at Telstra!  
 Good luck with Mildura.  
 I will stand <sup>Anderson-DS</sup> down.  
 Drive safely.  
 Regards,  
 Black-O

Yeh - interpose doesn't work all that well on the run, crashes every time you lose signal.

I'm sending an email to all parties re the seminar, if you could let <sup>Anderson-DS</sup> know, that would be helpful.

How did the presentation go?

Re Mildura - honestly don't know if we are on a wild goose chase or not, may have to meet [REDACTED] today. Waiting for a response from the source.

Will keep you updated throughout the day when I know what's going on.

Well there is no real point unless he is there.  
 We can exercise our fall back date of Monday 11th May 2009.  
 The leave roster is still clear for that Monday to Wednesday of that week.  
 Just let me know asap, so I can cancel <sup>Anderson-DS</sup>

Have data card and send e-mails on the run, not bad!

Drive safely,

**Black-O** . I have been advised by the Super that he will be unavailable for the seminar next week. He has some extensive views about the 3838 deployment and I think he really should be there.

I am thinking of postponing again - your views?
