CONFIDENTIAL

Danye

While we wait for Peter to clarify the latest scenario about contact F to facilitate contact to a witness, I also have the following directions from the Chief Commissioner to execute and would be grateful if you could please ensure that your senior managers in Crime (particularly Purana) are aware and comply:

- witness F is not to be called as a witness for any matter
- no contact with witness F and witness F is only to contact the OIC of the SDU
- all statements, draft statements, information reports, recordings etc that relate to witness F in whatever capacity that is in the possession of Crime Department staff is to be provided to Paul Sheridan for secure storage. If you are inclined to destroy material that does not need to be stored then that should be fine provided there is evidence of it being destroyed. Grateful if this could be achieved by Friday 10 September.

Compliance with these conditions will ensure we meet the obligations of the settlement

Regards

JP
