Subject: Further letter to F

Hi Luke

Thanks. We need to sort out the ^{Graham Eve} allegation (not there etc) and, from now, indicate who the "reserve" is of for any reason the SPOC isn't immediately available. Looking further she also needs to understand that her activities since 2004 (?) must at some stage emerge and that will change the equation totally. Do you think we should offer an early confidential meeting to explore that? Fin is starting to address her claim.

Ken

Subject: Further letter to F

Ken et al,

I have asked Fin to instruct VGSO to have a further letter to F ready to go following DPP's expected withdrawal of the Dale prosecution.

The letter will say, notwithstanding the withdrawal of the prosecution and her no longer being required as a witness for those proceedings we continue to hold a serious concern for her safety and that we still believe her life to be in danger. We will again put the witness protection offer to her. I asked Fin to make sure the language pulled no punches about the concern for her safety and the reality of the threat.

For info, we now have a response to the last letter in which she declines witness protection. Note that she also alleges that her "handler" has gone o/s and she now does not know who her Contact person is. I have asked Fin to confirm the position with Steve Smith. My understanding was that she had been told who she could go to while her contact person was on leave. Fin will confirm that arrangement in the latest letter and rebut the assertion that no alternate contact was provided.

Regards

Luke
