IMHO the matters relating to the subversion of the administration of justice are most appropriately raised with the DPP.

We could refer those points to Fin and ask him to canvas this with Jeremy Rapke.

I also think serious consideration should be given to raising Magistrate Reardon's disgraceful outburst re our application for the suppression order for CW with the Chief Magistrate. Reading the transcript in light of subsequent events should be all that would be required to make the point, especially given that Mr Reardon all but named CW to the assembled media and public in open court. The level of anger held by the Petra TF about his conduct will need to be addressed.

I look forward to seeing the settled TORS and if these can be tabled with the Petra TF tomorrow, it will go a long way to allaying their concerns that they are being scapegoated for CW's murder.

Thanks Jeff, think we are on the same page. Spoke to Steve Smith at about 5.20 p.m. for about 20 minutes and concur they (Petra) are gutted and currently a fragile workgroup. I've liaised with Ken and suggested after our OPI meeting tomorrow at 1100 I make my way to Petra, where Ken is meeting with the Petra workgroup at about 1130 - Ken is supportive of this. If we don't make it by the 11.30 - 11.45 mark I'd appreciate if both you and I attend over the next few days, as Petra are eager to understand the direction of Driver T.F.

I agree the points raised by S.Smith re. the media and the points fall within the draft Terms of reference. The other points, whilst certainly an issue the Petra investigations I don't think need to be included in the terms of reference. Whilst they might be touched on during the Driver T/F enquiries, by placing them in the terms of reference would / could infer the issues will be addressed or investigated.

Thanks

Doug

Ken

As discussed, both Emmett and Luke have indicated that the staff at Petra are absolutely gutted at what has occurred over the past few days. Much of their hard work is going to be lost. The Petra staff are absolutely committed to assisting Task Force Driver and they are looking forward to sharing their intelligence, information, knowledge and experience. We should capitalise on this and I recommend that you and Doug meet with the staff to talk to them about the intelligence value of the work they have done and how critical that will be to TF Driver. Doug should then have a number of lengthy conversations with Steve Smith. If the time permits I would also like to meet with Steve as I have no real knowledge of their work.

Steve Smith has nominated some suggestions for the TF Driver TOR (see below). The last 5 may fall within current scope (according to our latest draft) but the others may not - something to consider.

It is great to have such a collaborative approach from Petra. This is an excellent start for TF Driver.
