Steve

I am happy with this. My only comment would be to insert into TOR 2 control measures (tasking continuous risk assessment, tasking and coordination, evaluation of changing handlers - those sorts of issues that can influence how the source is managed and the outcome.

Happy for you to go ahead and insert the administrative arrangements

JP

Jeff, Fin advised that he has spoken to you re this.

Given our conversations on Tuesday, and my subsequent conversations with Neil Comrie, <sup>Hotham-O</sup> and with VGSO I have had a crack at revising the draft TORs as to tighten the focus to the critical and discrete issues identified as of greatest concern.

I am not at all precious about this and would welcome your feedback as to if it is what you have in mind.

I can include timelines and administrative arrangements etc in due course once we are all (you / Fin / Neil Comrie etc) happy with the intended focus.

Steve Gleeson
