ANALYSIS

The identified documents are hereby provided in hard copy. The documents have been sourced from either the HSMU or SDU holdings:-

- Documents (A to G) detail the SDU preparation for a human source reward for HS 3838. The 'modified date' of these documents (refer B) supports that most of these documents were created during Day 1 at the SDU [REDACTED] Workshop;
- However, document (H) is the only request for reward, relating to the proposed withdrawal of two penalty notices issued to HS 3838;
- Documents (I & J) are hard copy management files, which were uploaded to HS 3838 Interpose file. The documentation included formal authorisation of the 2006 HS reward application for the withdrawal of the two penalty notices. The HSRC authorised the action on 26-04-2006;
- Document (K) is a catalogue of all physical files relating to HS 3838 / Witness "F" previously stored at HSMU. The safe and all documents were moved to Assistant Commissioner POPE's office on 13-08-2012. No mention within that material of a reward application;
- Document (L) is a six page report from D/I John O'CONNOR summarising key aspects of HS 3838 / Witness "F":-
 - i. Management duration;
 - ii. Source contact reports;
 - iii. Information reports;
 - iv. Associates;
 - v. Criminal activity;
 - vi. Deceptive behaviour.

RECOMMENDATIONS

Given the nature of the security and sensitivity surrounding these documents, I recommend that this file be forwarded to the current CSR, D/Sup't MAHONY for consultation with the former CSR, D/Sup't SHERIDAN, before any further dissemination takes place.

For information and attention.
